PROFESSIONAL SUMMARY

Final-year Computer Science student with training in data analysis, business intelligence, and machine learning. Skilled in using Python, SQL, Excel, Power BI, and Tableau for data cleaning, exploratory analysis, visualization, and reporting, with a foundation in supervised and unsupervised learning and the mathematics behind them. Seeking an internship or entry-level role to apply analytical and predictive techniques to real-world problems.

EDUCATION

Bachelor of Computer Science **2023 – Present**

Faculty of Computers and Information, Minya University

- Major: Computer Science
- Current GPA: 2.91

TECHNICAL SKILLS

Programming and Data Manipulation: Python, NumPy, Pandas, SQL (MySQL)

Data Analytics and Visualization: Microsoft Excel, Power BI, Tableau, Exploratory Data Analysis (EDA), Data Cleaning, Data Preprocessing, Data Visualization

Machine Learning: Linear and Logistic Regression, Naive Bayes, KNN, SVM, Decision Trees, Ensemble Learning, Unsupervised Learning, Feature Engineering, Model Evaluation, Hyperparameter Tuning

Mathematical Foundations: Probability, Statistics, Linear Algebra, Numerical Optimization

Other Technical Skills: Object-Oriented Programming (OOP), Problem Solving

INTERNSHIPS AND TRAINING

Machine Learning for Data Analysis Trainee **Jun 14, 2026 – Present**

Digital Egypt Youth (DEY) – Creativa Innovation Hubs

- Participating in a three-month program with technical training, soft skills development, and a coaching phase; completed 90 hours of technical and 30 hours of soft skills training, and the coaching phase is ongoing.
- Applied Python, NumPy, and Pandas for data manipulation and analysis; studied statistics, data visualization, exploratory data analysis (EDA), and data cleaning.
- Learned Linear Regression, Logistic Regression, Naive Bayes, K-Nearest Neighbors (KNN), Support Vector Machines (SVM), Decision Trees, and Ensemble Learning.
- Covered data preprocessing, feature engineering, optimization, model evaluation, unsupervised learning, model selection, hyperparameter tuning, and model deployment fundamentals.

AI and Machine Learning Foundation – Level 1 Trainee **Aug 16 – Sep 7, 2026**

Information Technology Institute (ITI)

- Completed 90 hours of training in Artificial Intelligence and Machine Learning fundamentals.
- Studied probability and statistics for machine learning, linear algebra for data science, and numerical optimization.
- Developed Python programming skills and learned data preparation and exploration techniques.
- Studied neural networks and deep learning fundamentals.

Advanced Data Analytics Trainee **Jul 19 – Aug 13, 2026**

National Telecommunication Institute (NTI)

- Completed 120 hours of training: 90 hours of technical training and 30 hours of soft skills, freelancing, and career development.
- Developed practical skills in Microsoft Excel, Power BI, Tableau, and Python for data analysis, visualization, and reporting.
- Covered freelancing and career development topics, including service definition, pricing and negotiation, project planning and management, portfolio creation, personal branding, gig creation, and proposal writing.
- Achieved a final score of 100%.

AI and Data Science Trainee **Nov 2025 – Jul 2026**

Digital Egypt Pioneers Initiative (DEPI) – CLS | *Microsoft Machine Learning Engineer Track*

- Completed the DEPI training program focused on Artificial Intelligence, Data Science, and Machine Learning.
- Developed skills in Python programming, data preprocessing, exploratory data analysis, and data visualization.
- Studied Machine Learning, Deep Learning, Natural Language Processing (NLP), and Computer Vision.
- Covered foundational topics in statistics, linear algebra, and Prompt Engineering.
- Gained exposure to English communication, soft skills, freelancing, and career development.

IoT Intern **Aug 2025**

Information Technology Institute (ITI) – SpimeSenseLabs | Certificate

- Completed 60 hours of theoretical and hands-on training in Internet of Things (IoT); studied the IoT value chain and real-world IoT solutions.
- Developed IoT applications using the MasterOfThings IoT Platform.
- Worked with IoT lab devices including SigFox Innovation Kit, WiFi IoTik, and BLE Gateway; explored wireless communication technologies and device integration.
- Achieved a final evaluation score of 100%.

Data Analysis Intern **Jun 2025**

National Telecommunication Institute (NTI) | Certificate

- Completed 120 hours of training: 90 hours technical and 30 hours freelancing and career development.
- Worked with real-world datasets using Excel, SQL, Python, Power BI, and Tableau for data processing and visualization.
- Developed dashboards and analytical reports to summarize findings and insights.

EXTRACURRICULAR ACTIVITIES

Technical Member **2025 – Present**

GDG Minya

- Contributed to technical events and workshops.
- Collaborated with team members to support community-driven learning and knowledge sharing in technology.

COURSES AND CERTIFICATIONS

- Introduction to Data Analysis – TIEC@Creativa – 2025 | Certificate
- Mastering Object-Oriented Programming (OOP) using C++ – ITI Platform Mahara-Tech – 2025 | Certificate
- Cybersecurity For All – ITI Platform Mahara-Tech – 2025 | Certificate
- Introduction to Database Systems – Almentor – 2025 | Certificate
- Website Development: HTML5 and CSS – Almentor – 2024 | Certificate
- Learn Photoshop for Beginners – Almentor – 2024 | Certificate
- Learn Coding with C# from Scratch – Almentor – 2024 | Certificate
- Basics of Programming with C++ – Almentor – 2024 | Certificate
- Algorithms and Problem-Solving Level 1 Solutions – ProgrammingAdvices – 2024 | Certificate
- Programming Using C++ Level 1 – ProgrammingAdvices – 2024 | Certificate
- Algorithms and Problem-Solving Level 1 – ProgrammingAdvices – 2023 | Certificate
- Programming Foundations Level 1 – ProgrammingAdvices – 2023 | Certificate
